GULF COAST IN GRASP SEVERE TROPIC STORM

New Orleans is Storm's Center, and Considerable Damage Also Done at Pensacola.

NEW ORLEANS, La., Sept. 21.—Considerable damage to property, interruption of railroad traffic and the shutting off of telegraph communication were the results yesterday of a tropical storm, striking the Gulf coasts of Louisiana and Mississippi. No lives were lost as far as can be ascertained. The principal property to suffer damage along the coast was bath houses, fishing smacks, club houses and other frail-constructed buildings.

The trains of the Louisville and Nashville were brought to a standstill at Chefmeteur, 30 miles east of New Orleans, by the washing away of its tracks at that point. Shortly before noon the wind was reported to be abnormally high at Chefmeteur, and the water was rising rapidly. Grave fear is entertained for the safety of the railroad bridge there.

While nearly all points along the Mississippi coast felt the force of the hurricane, the wind apparently attained its greatest velocity between Lake Catherine and Waveland, Miss.

The principal damage done in New Orleans was the partial destruction of the big horticultural hall at Audubon Park. The maximum velocity attained by the wind here was 41 miles an hour. Telephone service has been seriously impaired throughout the city.

At 2 o'clock yesterday afternoon the local office of the United States weather bureau stated that the full intensity of the hurricane in this section has apparently not yet been reached. The barometer continues to fall. Communication by telephone or telegraph with many points in Louisiana has now been cut off. Indications are that the storm is rapidly moving northwestward.

WIRES ARE DOWN.

MOBILE, Ala., Sept. 21.—From information obtained here from the Louisville and Nashville railroad telegraph office, the hurricane that has been in the Gulf of Mexico since Saturday struck the territory west of Bay St. Louis, Miss., and about fifty miles from New Orleans, yesterday, and the high tide that accompanied the wind has washed the tracks of the road up in two places. Through traffic has been abandoned. At 1 p. m. the Postal, Western Union and long-distance telephone companies report all wires down between Mobile and New Orleans.

HEAVY LOSS IN CUBA.

HAVANA, Sept. 21.—Telegraphic wires and bridges between Havana and Pinar del Rio are still down, and consequently it has been impossible

to ascertain the extent of the damage wrought by the storm last week in that section. It has been learned, however, that many hundreds of peasants are destitute from the destruction of their huts and crops. The treasury is without ready relief funds, and President Gomez Sunday night called a special session of Congress for September 24th to make a relief appropriation. The total loss in Pinar del Rio is estimated at \$1,000,000.

STORM FELT AT BEAUFORT.

BEAUFORT, S. C., Sept. 21.—The hurricane that swept over Cuba and the Gulf began to show itself along the coast here yesterday. Many three, four and five-masted schooners, fearing the tempest, are coming up under the lee of Cape Lookout in search of a safe harbor. The temperature has fallen considerably.

WHARVES SWEEP AWAY.

PASCAGOULA, Miss., Sept. 21.—This coast has been in the throes of a Gulf storm, and at this hour, 4 p. m., the storm is quite severe, with the wind blowing in fitful gusts at the rate of forty miles an hour, accompanied by heavy rains. A dozen or more wharves have been swept away.

DAMAGE AT BILOXI.

BILOXI, Miss., Sept. 21.—The Gulf storm struck this city at 3 o'clock yesterday morning, with the wind blowing forty miles an hour, continuing to increase in intensity till it reached sixty miles an hour at 5 o'clock in the afternoon. It is estimated that the high tide and the wind have wrought damage to property between forty and fifty thousand dollars.

Between Beauvoir and Debuys 500 feet of the track of the Gulf Coast Traction Company is washed away and another hundred feet is gone near the Soldiers' Home, and to the eastward of Gulfport another 150 feet were washed away. All the bath houses and piers along the beach from Gulfport to the home of United States Senator Money, a distance of four miles, have been swept away. Three hundred feet of the electric car line at Long Beach, Miss., have been swept away.

A pen containing 5,000 diamond-back terrapins, valued at \$5,000, located on the back bay of Biloxi, is threatened by the incoming tide and many men are working to save the terrapins. Twenty shrimp boats are reported to be out in the storm, but a boat arriving here late Sunday night reported that they are making for Lake Borgne canal for harbor. The schooner Ruby and a wharf recently

Everything on Premises Poisoned by Ice Cream

BAINBRIDGE, Ga., Sept. 21.—The family of James M. Diffie, including himself, Mrs. Diffie, Marie, James, Ethel and Bertha, two servants and even the cat and dog, were taken violently ill about 7 o'clock Sunday afternoon and for several hours their condition was very serious if not alarming.

Physicians were called to diagnose the case and pronounced ptomaine

poisoning, and upon investigation the trouble is supposed to have been from the ice cream that was served at dinner. Their condition is greatly improved, and they are entirely out of danger.

The family of W. L. May was taken violently ill, also, from the same trouble during the night and the cause is supposed to have been from the same source. Their condition is also very much improved today.

GOV. JOHN A. JOHNSON HAS PASSED AWAY

MINNESOTA'S CHIEF EXECUTIVE
DIED TUESDAY MORNING.

His Last Words to His Wife, "Well, Nora, I Guess I'm Going."
A Remarkable Man.

ROCHESTER, Minn., Sept. 21.—John A. Johnson, three times Governor of Minnesota, candidate for Democratic nomination for President last year, and looked upon by many throughout the country as a probable nominee in 1912, died at St. Mary's Hospital here at 3:25 this morning, following an operation on last Wednesday.

The Governor lapsed into unconsciousness at 1 a. m., and toward the end he revived himself several times to pat his wife on the cheeks. His last words were, "Well, Nora, I guess I'm going; we have made a brave fight."

Dr. W. J. Mayo stated that there were no traces of blood poisoning, and that the immediate cause of his death was exhaustion and heart failure. Considerable encouragement was felt yesterday morning.

When the Governor had breathed his last, Mrs. Johnson, who had been in almost hourly attendance at her husband's side, and who had borne up bravely under the ordeal, totally collapsed and was taken to the Sullivan Home.

Sketch of Life.

John A. Johnson, one of the most unique figures in the nation's politics, has had a most remarkable career and his wonderful achievements show the possibilities of the American youth.

He was of Swedish parentage and was born in St. Peter, Minn., in 1861. He attended the public schools for a while, but the poverty of his parents compelled him to go to work, and he secured work in a printing office. His father became an inebriate, and in order to support the family the mother was forced to do washing for her neighbors, as the boy's wages were quite small.

Full of pluck and ambition, young Johnson determined to make his mark in the world, and by industry he acquired an interest in The St. Peter Herald and became editor of that paper. In 1894 he was sent to the Minnesota State Senate as a Democrat, and his record there stamped him as a man of wonderful native ability.

In 1904 he was elected Governor of Minnesota, in spite of the fact that the State was overwhelmingly Republican. In 1906 he was re-elected, and again was called to this honor in 1908. As a reformer he stood among the most prominent in the country, and was strongly supported for the Democratic nomination for President in the campaign of last year.

His position on all Governmental propositions stamped him readily as a statesman, and in his death the country sustains a serious loss.

built by W. M. Hampton were wrecked. The driveway, known as "The Beach road," along the coast in front of Biloxi, is completely gone, entailing a loss of fifteen or twenty thousand dollars. Louisville and Nashville train No. 6 is the only train reaching Biloxi from New Orleans. No train has reached here from the north and all telegraph wires are down. No loss of life is reported.

PEOPLE DRIVEN FROM HOMES.

PENSACOLA, Fla., Sept. 21.—Blowing steadily all day at a velocity between fifty and sixty miles an hour, the wind yesterday afternoon increased to hurricane velocity and indications are it will still increase during the night. Shortly before dark the weather bureau displayed the hurri-

BOTH EXPLORERS WERE WELCOMED ON TUESDAY

Commander Peary Arrives at Sydney, While Dr Cook Sets Foot on Manhattan Island.

SYDNEY, N. S., Sept. 21.—Commander Robert E. Peary will not make his entry into Sydney until today. The Arctic ship "Roosevelt" anchored off St. Paul's Island yesterday, when the explorer found he could not reach port before nightfall. This is about sixty-five miles north of Sydney.

Mrs. Peary, her daughter, Marie, and little Robert E. Peary met the commander last night, the Peary family having sailed North on the steam yacht "Sheelah," owned by James Ross, president of the Dominion Coal Company.

Mrs. Peary's trip toward St. Paul's Island was entirely unexpected, for it had been announced that she would greet her husband from the deck of the "Sheelah" down the bay. The "Sheelah," however, kept on her way and when last seen was passing in and heading directly toward St. Paul's. The sea was calm last night, there was no wind and no difficulty was experienced in putting the explorer's wife and children aboard his ship. Little Robert had dressed himself in a sailor suit and carried an American flag.

Reception Postponed.

News that Commander Peary was nearing port and would probably land late yesterday caused a general cessation of business in the town. Large crowds swarmed into the streets and to the water front to welcome the explorer. Later it was announced that Commander Peary would not be here until this morning.

The tug C. M. Winch, gaily decorated with flags, will convey the official welcoming party down the bay at an early hour. This party includes the mayor of Sydney, Wallace Richardson, the heads of the city department and other prominent officials.

Commander Peary has given emphatic denial to the assertion credited to Dr. Cook that he told the Eskimos at Annatok that Dr. Cook was dead, and that he consequently would take

possession of the supplies left there by Cook.

More Anent Cook's Stores.

As nearly as can be ascertained from members of the "Roosevelt" crew the house built by Dr. Cook at Annatok, and left in charge of Rudolph Francke, was found unoccupied when the "Roosevelt" arrived. Francke was away trying to get passage home.

Dr. Cook's house had been empty for several weeks and the supplies therein were being pilfered. Francke sought permission to go to the United States on the Peary auxiliary ship "Frik." This was granted him and he turned over an inventory of the supplies in Dr. Cook's house. Boat-swain Murphy was then placed in charge of the house and its contents. He says he found that many packages had been broken open and their contents partially or totally removed.

When Dr. Cook returned to Annatok he complained about the occupation of the house and its removal to a new position. Murphy says he explained the situation fully to Dr. Cook, who appeared satisfied, and it was agreed that the house should be occupied jointly.

Whitney Believed Cook.

According to the statement made last Saturday at Battle Harbor by William Pritchard, cabin boy and assistant cook on the "Roosevelt," two persons knew as long ago as last April that Dr. Frederick A. Cook claimed he had reached the pole April 21, 1908. Those persons are Harry Whitney, a wealthy sportsman of New Haven, Conn., at present on the Greenland coast on board the steamer "Jeanie," and Pritchard himself.

They saw Cook at Annatok, Greenland, after his return from the North. The only reference to Dr. Cook which Whitney is known to have made dur-

Sad Drowning of Two Children Near Leesburg

One month ago Mr. Douglas McClendon of Montclair, two miles west of Leesburg, was married to Mrs. Byers in Pennsylvania. She had one little girl four years old. After their marriage Mr. and Mrs. McClendon moved into the B. C. Lanier house, near the clay road running from Leesburg to Whitney. About ten days ago Mr. and Mrs. Herrick Johnson, relatives of the McClendons, came from their home at St. Petersburg to visit friends at Montclair. They had with them a little boy two and a half years old. On last Monday Mrs. Johnson and her little boy were visiting Mrs. McClendon. About 10 o'clock, or soon after, the two ladies walked out into the field nearby to get some potatoes and left the two children, Helen and Thomas, for such were their names, playing in the yard. The children soon wandered off to the clay road, whether just in their play or having decided to go to one of the neighbors' no one knows. On the clay road at this point there is a high fill and on either side there is now deep water. A few minutes, or possibly a half-hour later, Philip Wilkins, a small boy of Leesburg, was riding

along the road and was shocked to see the body of a child, a little boy, floating on the water a few feet away. He was too much frightened to get off his horse and help the child out, so he rode rapidly on to Mr. Monroe's, gave the alarm and Mr. Monroe came at once to the scene. There he found in the deep water the bodies of two children instead of one. In what manner they had gotten into the water no one knows, but both were dead; their little lives had passed beyond the point of resuscitation. A physician was called but it was too late; their last play had ended; their sweet voices were still forever, and their innocent souls had gone to their Father above. It was indeed one of the saddest of all sad scenes and events. The children were laid to rest side by side in Lone Oak Cemetery on Tuesday morning. Their parents and relatives have the deepest sympathy of all our people. The funeral services were conducted by Rev. Henry Hice of Leesburg. A very large number of people assembled at the burial ground to give their expression of respect and sympathy for the two sorrowing families and their friends.—Leesburg Commercial.

OWEN THREATENED TO COMMIT SUICIDE

ALACHUA COUNTY MURDERER
BECOMES DESPERATE.

Wrote Letter to His Wife, Who Notified
Officers of the Man's
Intentions.

The Jacksonville Metropolis of Tuesday says:

"Declaring that he intended to end his life by cutting his throat at a certain hour yesterday, R. H. Owen, the white man who is held at the Duval county jail for safe keeping because of the murder of two men in Alachua county, recently addressed a farewell letter to his wife, and began to make preparations for self-destruction. His plan fell through, however, and he still awaits the action of the Pardoning Board, which will say whether he goes to the gallows, has his sentence commuted to life imprisonment, or goes free. The last action, however, appears to be improbable.

Wife Tells Story.

"Immediately after receiving the letter, Owen's wife wrote to the sheriff's office and inclosed the letter, which sensible act has caused the condemned man no little inconvenience and sorrow. Determined that Owen should not destroy himself in the Duval county jail, Chief Deputy Sheriff Oscar H. Nolan had the man removed from comfortable quarters to one of the smallest cells in the jail, such as is used exclusively for condemned prisoners shortly before the hour of death approaches. Owen was thoroughly searched for weapons of any character, but none were found on him.

Enraged at Betrayal.

"The prisoner was at first at a loss to know why he was placed in the small cell, and in answer to his inquiries the letter he had written to his wife was given to him. He was enraged at the fact that he had been betrayed, and later wrote a long letter to his wife, telling her how unjustly she had treated him and of the suffering she had caused. He has been docile since being placed in close confinement, but the officers do not intend to take any chances, and he will remain in the small cell until his case is disposed of at Tallahassee and he is sent back to Gainesville. The officers do not doubt that Owen intended to kill himself if he got an opportunity, as he is in a desperate mood, and is a man who would much rather kill himself than be executed on the gallows."

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office. Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it. CHAS. M. DELL.

CITY POLITICS ARE NOW IN WARM STATE

TWO MORE PROBABLE CANDIDATES FOR MARSHALSHIP.

Only Two Have So Far Openly Announced for the Vacancy
Caused by Resignation.

Although the special city election called for the 19th of next month is nearly a month off, politics concerning the office of marshal, for which the election has been called, is creating considerable interest and the announced candidates are working among their friends with a vim.

There are already two candidates announced, Harry L. Owens, who is at present filling the position, and Chas. M. Dell, who is filling the position of street superintendent, and there is a probability that one or more are yet to enter the race.

While nothing definite has been learned from the probable two yet to enter, it is understood that both C. C. Warren and Chas. Pinkoson will be candidates for the honors.

Both Mr. Owens and Mr. Dell are hard-working and deserving men, and in the event that the race is between these two men, it will, from all indications, prove most interesting, as both are entering the race with the full conviction that they will be successful.

NEGRO ATTACKS A WHITE LADY IN GEORGIA CITY.

CARROLLTON, Ga., Sept. 21.—While sitting in a room at her home rocking a baby last night, some unknown negro slipped into the house, and when Mrs. Newt West had put the baby to bed the negro knocked her down and began to choke her, attempting to make an assault. She gave a scream, and the negro escaped.

Several negroes have been arrested, and it is not known up to this hour whether the right one has been arrested. Mrs. West is in a serious condition, and unable to give any description of the negro who attempted the assault.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all druggists.

Your Liver

Better stir up your liver a little! Not too much, just a little, just enough to start the bile nicely. One of Ayer's Pills at bedtime is all you need. These pills act directly on the liver. Made for the treatment of constipation, biliousness, dyspepsia, sick-head-ache. Sold for over 60 years.

BOTH EXPLORERS WERE WELCOMED ON TUESDAY

(Continued from Page One.)

ing his brief sojourn on board the "Roosevelt" was a casual remark to a member of the Peary party that he believed that Dr. Cook reached the pole. Pritchard kept the news even more faithfully and his statement Saturday was the first intimation that he had any information on this subject. Pritchard explained that he kept the news to himself because he did not wish to be dragged into the trouble. He was asked how he knew before he came South on the "Roosevelt" that there was going to be a controversy, and declared that Dr. Cook had cautioned him not to speak to anyone until he reached civilization. Pritchard's reticence with this important news in his possession was a complete surprise to everybody on board the "Roosevelt."

Cabin Boy Talks.

In the beginning Pritchard told the correspondents that Cook had talked freely to him at Annatok with regard to his dash over the ice, indicating to him on a map the route he had followed. Later Pritchard modified this by explaining that Cook's story was told to Whitney, and that he, Pritchard, was present in the room. Pritchard said Dr. Cook had only two Eskimos with him at the pole. The language barrier made it impossible for Pritchard to talk with these Eskimos.

John Murphy, the boatswain of the "Roosevelt," who was ashore with Pritchard when Dr. Cook appeared at their station, was greatly astonished when informed of Pritchard's knowledge. Murphy declared that Cook talked with him on several occasions while they were together about his trip on the ice, but said nothing about having reached the pole.

Murphy Wasn't Present.

Asked how it was possible for Pritchard and Whitney to have heard Cook's story without his also hearing it, inasmuch as all four men occupied the same house at Annatok during Cook's stay, Murphy replied that a question to Pritchard had brought him the answer that Dr. Cook's story of his dash to the pole was recited to Whitney and the cabin boy on a day he, Murphy, was absent at Etah. This statement was verified by Pritchard.

The "North Pole flag" which Peary had made at Battle Harbor will be displayed for the first time on the "Roosevelt" entering this port. It is a standard United States flag with a broad white band laid in diagonally from the union corner down. On the white ground are the words "North Pole" in black letters.

Coming into Sydney a Canadian ensign, presented to Peary at Battle Harbor by the captain of the Canadian government vessel "Tyrian," will decorate the foretopmast of the "Roosevelt." The Peary Arctic Club flag will be flown at the mainmast and the New York Yacht Club flag that has been displayed at Cape Sheridan will be at the mizzenmast.

POLE'S FIRST DISCOVERER HAS REACHED NEW YORK.

On Board the Steamship Oscar II, off Fire Island, Sept. 21, (via Wireless Telegraph).—Capt. Hempel of the Oscar II anchored and spent the night off Fire Island last night.

Dr. Cook spent the day in preparing for his landing today. He was overjoyed at the prospect of again seeing his wife and family.

He continues to receive many wireless dispatches offering large sums of money for lectures and articles but he will accept none of them until after his arrival in New York. The manuscript of his book is almost complete, needing only slight revisions.

S.S.S. PURELY, VEGETABLE

The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S. S. S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write.

THIEVES ARE WORKING THE CITY OF ALACHUA

EVERY WEEK ONE OR MORE
STORES ARE ENTERED.

One Party Seen and Ran Off Monday
Night by a Crowd of
Young Boys.

Thieves are now frequenting the little city of Alachua and there is scarcely a week but one or more of the stores of that quiet but bustling city are entered.

On Monday evening a bold thief entered the store of the H. J. McCollum Company, located on the principal street of the place, and was in the act of taking off a good-sized load of goods when he was suddenly interrupted and checked by a crowd of small boys who had been out on a night possum hunting trip and were returning just as he was preparing to make his exit with the first load.

The burglar had filled his sack with hams, sausage and shoes when the boys came upon the scene, noticing the light in the place, and the man, a negro, heard the noise and made his escape.

The store of Roberts & Co. was twice entered during last week, while a number of the business houses have reported small thefts of furnishings and groceries, and it would pay them to get together and secure the services of a night watchman to protect the city until the thieves are caught.

It is the general impression that the work is done by a band of negroes in that section who are thoroughly acquainted with the surroundings, for outside of taking a few articles, nothing of great value has been missed.

BABY'S PITIFUL CASE OF ECZEMA

Summer Rash Became a Dreadful
Itching Humor—Big Blisters
Formed and Skin Grew as Hard
and Rough as Bark—Scratched
and Tore Flesh till Blood Ran.

ALMOST MAGIC CURE BY CUTICURA REMEDIES

"Our son, two years old, was very much afflicted with a breaking out or what looked to be a summer rash. I applied the usual remedies, such as washing with soda water and powdering with boric acid. Finally, after he suffered with the trouble several weeks I took him to the doctor. He said it was merely a rash that was quite prevalent, and that I was giving the right treatment and that I should just continue it and the baby would soon be all right. But instead of getting better it was getting worse. The rash ran together and made large blisters. The little fellow didn't want to do anything but scratch and we had to wrap his hands up to keep him from it as he would tear the flesh open till the blood would run. The itching was intense, causing loss of appetite and flesh. When it seemed to hurt him most the skin on his back became hard and rough like the bark of a tree so that rubbing or brushing would not break it. He was so feverish that I thought it a bad case of eczema. He could not wear any clothes but a little nightgown with the sleeves just fastened at the top of the shoulder. He suffered intensely for about three months. But I found a remedy in Cuticura Soap for bathing and Cuticura Ointment with which I anointed the sore places. This kept the rash from spreading and in less than a week the result was almost magical. That was more than two years ago and there has not been the slightest symptom of it since he was cured. I am never very long without Cuticura Soap as my family knows the value of it and don't like a substitute. J. W. Lauck, Yukon, Okla., Aug. 28 and Sept. 17, '08."

Millions of women throughout the world use Cuticura Soap and Ointment for eczemas, rashes, itchings, irritations, inflammations, chafings, pimples, blackheads, dandruff, dry, thin and falling hair, sanative, antiseptic cleansing, and for all the purposes of the toilet, bath and nursery.

BUCKMAN HALL IS LONG SINCE FILLED

ADDITIONAL ROOMS SECURED
AND THESE ALL TAKEN.

Reservations at University by Far
Exceed All Expectations of
the President.

Already all of the available space has been taken up at Buckman Hall at the University of Florida and the large extra building rented has been filled, so it is now a question as to where the school will find more room to accommodate the large number of students that will enter the State University at the coming term, which opens next Wednesday, September 29th.

In conversation with Dr. Murphree, the newly elected president, he stated that prospects were most flattering for the largest attendance in the history of the institution, and that another season would probably more than double the attendance for the coming term.

There have been reservations made for about one hundred and of course this will be largely added to on the opening of the school.

A number of changes and additions have been made to the school for the coming season, principally the addition of the law department, and this alone will greatly increase the attendance. The library of this department is the best to be found in the State, with one exception, and there is not another college in the South that can boast of such a collection of books on the first year of its existence.

The entire body of instructors are all of the highest class and order, and the people of the State will do wise to consider well before placing their children in other locations, for here the expense is greatly reduced and at the same time the same, if not better, instruction is given.

SPITTING NUISANCE.

Hawking and Spitting Is Caused by
Catarrh Germs.

If the local authorities want to stop the disgusting habit of spitting mucus on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh. You can easily tell by reading the symptoms below whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.

J. W. McCollum & Co. have a sensible remedy (money back if it fails) for catarrh, called Hyomel, which is a vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00, and money back if it doesn't cure. Extra bottles, 50 cents.

"I have tried almost every catarrh cure on the market without benefit. Have been using Hyomel for one week and feel like a new man already."—Wm. V. Goode, Newark, Ohio, June 21, 1909.

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to
Detect the Approach of Kidney
Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SECOND DAY ENCOURAGING.

Many More New Scholars Enter the
High School Tuesday.

The present session of the Gainesville Graded and High School will eclipse all former years, as the enrollment Tuesday was also large, and the school will have many more additions as soon as all of the families will have returned who are now off "summering."

Prof. Cassels and his assistants are now hard at work and the first day showed that the scholars were with them and doing their utmost to improve the time which is most valuable to them.

At the present rate of increase, it is fully expected that the enrollment will reach in the neighborhood of six hundred before the session closes, and this alone shows a great increase in the population of the city this year.

NO QUORUM PRESENT.

Council Failed to Have the Required
Number Present Monday Night.

The adjourned meeting of the City Council which was to have materialized on Monday evening, was adjourned until Thursday, when considerable business of importance will come before the body.

There were present President Broome, Aldermen Colclough, Graves, Goodwin, and Clerk Dell, but owing to President Broome at present being the acting mayor he was disqualified to sit as a member of the body.

Another attempt will be made on Thursday evening, when it is hoped that all members will be present, as there are a number of ordinances that will materially affect the city that are now ready for passage and which have been practically agreed upon.

An increase of \$13,500,000 in exports at Gulf ports, compared with large decreases at North Atlantic ports, proves that those individuals who sing of the dreamy, sleepy South are suffering from nightmare.

Earth has few tragedies more pathetic than that of a man so filled with the lust of a wealth that he gradually loses all that is beautiful and ennobling in life and degenerates to a mere money-making machine.

An average of twenty-five carloads of naval stores per day for the last several days has been handled at Muscogee wharf, at Pensacola, the entire product going into the hold of a steamer moored there and loaded for ports in Germany.

The proposed plan of a number of American business men to organize a Russo-American Chamber of Commerce seems to be a step in the right direction. It should greatly stimulate American manufacturers and exporters to make fresh efforts to grasp some of the many opportunities offered by this rich field.

The history of the world has mainly been that of a few men who have loomed large on the horizon and who have performed great deeds, some good and some bad. Today the appearances indicate that while in the future the number of great men may relatively not be so large, the toiling many will come more to the front by virtue of greater industrial and political power, increased intelligence and vastly improved social conditions.

GENIUS IS WEALTH.

Genius is wealth, not only to the associates of the genius himself but to the nation as a whole. No one can live a life of great constructive achievements without conferring a benefit upon the whole nation; for while the property left passes to individuals, the institutions created, the knowledge gained, and the progress made become a part of the wealth of the whole people.

Some great men endow the world with economic wealth, and others with intellectual or moral wealth. The late Mr. Harriman developed railway systems which will permanently benefit the whole nation; he created new methods of financing which are of inestimable value to every railroad of the country; he helped to teach every American how to work; and the example of his moral courage, in working to the very end of his life to safeguard the financial world against the shock of his death, must permanently add to the value of American character.

Genius is a kind of wealth that cannot be replaced. The world has never reproduced its Phidias, its Shakespeare, or its Franklin, and we cannot know how much richer we should be if Alexander Hamilton were here to deal with the problems of municipal finance. Neither can we know how much more slowly our national wealth will increase by reason of the death of Mr. Harriman, or how much the growth of our great railway systems will be retarded. We may safely assume, however, that it will be a long time before the country will produce another leader with his grasp of both industrial and financial affairs. That his passing away produced no financial disorder, and that the growth of the country and its institutions will go on, are evidence of the nation's great strength and recuperative power.

Hon. W. A. Blount of Pensacola has positively announced that he will be a candidate for United States Senator at the primary next year. The Pensacola News says "he has weighed carefully every question concerning his entry into this race, and enters it fully prepared to wage a thorough and systematic canvass, covering every section of every county in Florida. What a decision on the part of Mr. Blount means only those who know him intimately, or who have come in direct contact with him in legal battles, can fully appreciate." There is no question about Col. Blount's ability, for he is recognized as the ablest member of the Florida bar, and his entry into the race means that Senator Tallaferra has a hard fight before him for re-election. Those thus far positively announced as candidates are Blount, Broward L'Engle, Reeves and Tallaferra. Senator Tallaferra will unquestionably obtain sufficient votes to be in the second primary, and the race for second place will be between Blount, Broward and Reeves, with L'Engle trailing in the rear. If Broward is shut out of the second primary it will be due to L'Engle's vote. Of the two men Broward is head and shoulders above L'Engle.

Richmond Times-Dispatch: "Senator Bailey has already been boomed for the Presidency, and now Senator Culbertson wears a distinctly Barkis-like expression. CURRENT COMMENT.

Montgomery Advertiser: "It is noted that in nearly all the Southern cities that President Taft is to visit the papers are talking almost exclusively of the good things they are going to give him to eat, as though the primary object of his proposed tour is to be fed high. So far as we have noticed not a word is said about drinkables, probably because he is expected to visit some of the alleged dry towns where it is not good form to even mention potliker."

Norfolk Virginian-Pilot: "Champ Clark complains that the recent extra session of Congress cost him \$7,000 by necessitating the cancellation of his Chautauqua engagements. That's a mere bagatelle. The tariff bill passed at that session will cost the masses of the American people about sixteen hundred million a year for the sole benefit of a comparatively small class of producers. The Democratic leader might make that the theme of his next jaw talking tour, instead of dwelling on his own insignificant loss."

Philadelphia Record (Dem.): "Canada is playing the 'protective' game like an expert. The province of Quebec will fall into line in the plan of prohibiting exports of wood pulp. This will compel paper makers to locate their mills in Canada. This, in turn, will force out of employment workmen heretofore employed in mills that will now be abandoned in the United States. It will probably also result in increasing the cost of paper. So much for making a tariff war against the third heaviest buyer in the world of exported goods from this country."

About a month ago a china nest egg belonging to a lady in Dade City mysteriously disappeared. One day last week a neighbor living one mile distant killed a snake, and noticing that it had swallowed something, he cut the snake open and found an egg. On comparing it with some other china nest eggs that this lady had they feel sure that it is the long-lost egg.

An accidental shooting took place in McDavid last Thursday. Miss Eva McClammy and sister were examining an old pistol, with no idea that the weapon was loaded, when the gun went off, the shot passing into Miss McClammy's abdomen. She was taken to the hospital in Pensacola as soon as possible after the accident occurred and was operated upon. The wound was a very serious one and may prove fatal.

Interesting Booklet Free.

The second edition of Booth's Famous People, a 32-page booklet, has just been published and will be sent free to any reader of this paper. A postal card will do.

The book contains portraits and concise autobiographies of some famous people, including Conan Doyle, Maude Adams, Madam Currie, the discoverer of Radium, and Sir Thomas Lipton, the merchant prince of the world.

There are four pages of valuable information, such as "Help in Case of Accidents," "Antidotes for Poison," "Stamp Flirtation," "How to Tell a Person's Age," Bible facts and figures, and other interesting features. Mention this paper when writing, and address Booth's Hyomei Co., Buffalo, N. Y.

DEAD FROM PELLAGRA.

CHARLOTTE, N. C., Sept. 21.—Mrs. Buena Dinkins died at the Presbyterian Hospital yesterday of pellagra, the eighth victim of the disease since its presence was announced in the community.

The woman was taken ill a year ago with what seemed to be diarrhoea. Later eruptions appeared on her arms, hands, feet and ankles, then followed internal inflammation and swollen tongue. She suffered no pain, but was emaciated and very weak. Physicians are nonplussed. Seven other cases are now under treatment.

THIRTY-SIXTH YEAR FOR MISS TEBEAU

AN OLD INSTITUTION THAT IS GREAT FAVORITE.

Started With An Enrollment of Fifty and Same Was Increased Tuesday.

For the thirty-sixth year Miss Maggie Tebeau's School was opened most successfully on Monday morning with an enrollment of over fifty in attendance, which number was largely increased during Tuesday, and more are expected to come later in the session.

This school, which has been so successfully conducted by Miss Tebeau, has been one of the mainstays of the city and an institution that the city points to with pride and great interest, for it has turned out some of the brightest and best young men and women of the State.

Only recently this school was designated as the Diocesan School of Florida by the Episcopal Church, and this in itself will cause it to bring many new scholars from other sections of the State.

The opening enrollment this term is most satisfactory to Miss Tebeau and assistant, Miss Thomas, and they anticipate a great increase within the next few days, particularly young ladies who have already engaged rooms at the school.

With this popular private school running, the University overflowing and the High School with an enrollment nearing the six-hundred mark, it truly makes Gainesville the leading educational center of Florida, and each can be pointed to as places of the highest class, where the child may receive all the care and attention that is desired.

A number of the patrons of the school, as well as members of the Diocesan Council, were present at the opening exercises.

Many people delude themselves by saying "It will wear away," when they notice symptoms of kidney and bladder trouble. This is a mistake. Take Foley's Kidney Remedy, and stop the drain on the vitality. It cures backache, rheumatism, kidney and bladder trouble, and makes every trace of pain, weakness, and urinary trouble disappear. J. A Fateful Breach of Etiquette.

Under the third empire in France Sainte-Beuve brought disgrace upon himself because at breakfast at the Tuileries he carelessly opened his napkin and placed it over his two knees. To this he added the crime of cutting his egg in two at the middle. Court etiquette prescribed that the half folded napkin should lie on the left knee and the top of the egg was to be merely broken with the edge of the spoon and drained with the tip of the spoon. For his failings in these respects Sainte-Beuve's name was stricken off the imperial visiting list. — London Chronicle.

The Town of Bushire.

Residents of a miserable seaport on the Persian gulf called their town Bushire (Boosheer). It has narrow, dirty, ill paved streets. The city is visited by earthquakes and simooms and stints its children of wholesome air and fresh water. It appears, however, to have enjoyed high repute among the ancient Elamites, who have left buried about under moldering heaps bricks with cuneiform inscriptions. In summer the citizens of Bushire live in a heat that is almost unbearable.

Her Sorrow.

"P-papa," sobbed small Sadie, "m-my canary is d-dead!" "Never mind, dear," replied her father; "I'll buy you another one." "Oh, I'm calm now," rejoined Sadie, "but when I first saw the poor little thing I cried like a child."—Exchange

Ask Her This Question

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by **Lydia E. Pinkham's Vegetable Compound**, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisement of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.

GULF COAST IN GRASP SEVERE TROPIC STORM

(Continued from Page One.)

cane signals and all vessels in the bay that had or could get up steam hurried across the bay to a cove for shelter. Ocean-going steamships anchored in the bay, put out all possible extra anchors. Ships at the navy yard and Fort Barrancas came up the bay and sought shelter in a cove. The ship Romenoff, moored at Perdido wharf, toppled over on one wharf and is in a precarious condition.

Several barges loaded with lumber lost their cargoes, and two were sunk near the western beach. Small boats all along the beach have been swamped and pounded to pieces. Long rafts of timber have been carried from storage and are adrift in the bay. Residents of Woolsey and Warrington and all along the bay shore west of the city came up to the city late in the afternoon on cars and are housed in the hotels and with friends, leaving their homes to the mercy of the elements. The tide is higher than known for many years.

WIRES ARE DOWN.

MEMPHIS, Tenn., Sept. 21.—The local offices of the Yazoo and Mississippi Valley railroad report that all of their wires south of Vicksburg, Miss., were lost shortly before 8 o'clock last night. Before that hour points south of Vicksburg reported a severe storm prevailing.

NEW ORLEANS CUT OFF.

LOUISVILLE, Ky., Sept. 21.—Communication with New Orleans, which was lost a few minutes before 5 o'clock yesterday afternoon, had not been restored up to 7:15 last night. The last report from New Orleans said that the wind was blowing 47 miles an hour, and that considerable damage had been done. Telegraph

and telephone wires on all routes entering New Orleans are down.

BUILDINGS UNROOFED.

JENNINGS, La., Sept. 20.—A severe wind and rain storm prevailed here all day. Trees were uprooted, and several buildings unroofed. No casualties have been reported. Telegraph and telephone wires are down in all directions. Great fears are entertained that much damage will result to the Japan rice crops.

Animal Mimicry.

Observers of nature are frequently struck with the singular resemblances of insects to leaves, dried sticks, etc., and these likenesses are supposed to have grown out of the necessity of protection against or concealment from enemies. An interesting example of this kind of resemblance was brought to the attention of the Entomological society in London by a naturalist, who exhibited a spider found inhabiting some rocks near Cannes, on which were also fastened the cases of a species of moth. When at rest the spider exhibited almost precisely the same form and color as the moth cases surrounding it.

Can't Beat 'Em.

As usual, he was monopolizing the newspaper.

"Please let me have the woman's page," she said.

He carefully tore off a page and handed it to her.

It was a full page advertisement of a millinery opening, and he chuckled at his own little joke.

Still, she was revenged. She went to the opening, and he paid the bill.—Chicago Post.

To Be Happy

You must have good health. You can't have good health if your liver is not doing its duty—slow but sure poisoning is going on all the time under such circumstances. Ballard's Herbine makes a perfectly healthy liver—keeps the stomach and bowels right and acts as a tonic for the entire system. Sold by W. M. Johnson.

After the Race.

"So your horse was distanced, was he?"

"Yes."

"Did you have anything on him?"

"I thought I had a jockey on him, but it seems I didn't."

Times to Laugh.

A.—Is the old man always so glum as this? B.—By no means. He laughs twice a year, spring and fall, when the new women's hats come in.—Flegende Blatter.

Strictly Business.

Theorist—You believe in giving credit to whom credit is due, don't you? Practical Man—Yes, but I make everybody else pay cash.—Chicago Tribune.

There are no small steps in great affairs.—De Reitz.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all druggists.

Nervous Women

For nervous, tired women, we recommend Cardui. Cardui is a woman's medicine. It acts specifically on the female organs and has a tonic, building effect on the whole system. It contains no harmful ingredients, being a pure vegetable extract. If you suffer from some form of female trouble, get Cardui at once and give it a fair trial.

TAKE CARDUI

It Will Help You

Mrs. W. W. Gardner, of Paducah, Ky., tried Cardui and writes: "I think Cardui is just grand. I have been using it for eleven years. I am 48 years old and feel like a different woman, since I have been taking it. I used to suffer from bearing down pains, nervousness and sleeplessness, but now the pains are all gone and I sleep good. I highly recommend Cardui for young and old." Try it.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

Who Pays For Your Printing?

Poor printing is a detriment to any business, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.

DON'T BOTHER

With Home-Baking While
the Weather Is So Warm

Take a rest during the remainder of the summer and try our home-made baking. We hardly expect you to say it is as good as your own, but 'way down in your heart you'll think so just the same. But try it anyway—you are entitled to rest as well as anybody.
